

Home Theater Column and Trims

Home Theater “Out of the Box” Program

Home theater is the fastest growing segment of home remodeling due to the excitement of new electronic technology, movie downloads, and the increasing costs of going to the movies. RowOne® has an “Out of the Box” program that provides a home theater environment creatively and affordably with columns, chair rails, crown and base moldings, and our chair risers.

There are two sizes of columns that are adjustable to a height of 96” with or without speaker openings. The columns can stand alone or be part of a complete home theater room.

The RowOne® column system hides all the wiring creating a dramatic home theater experience.

View from front to back showing RowOne® riser

E. Proscenium
(Show at right and on next page)

Create a dramatic frame around your cinema screen with RowOne’s impressive Proscenium system. Houses a 92”, 103”, 110” wide projection screen. Holds a center channel speaker up to 30”w x 15”h. Cherry finish shown

Available in Custom Finishes

Home Theater Columns and Trim

Dramatic. Refined. Elegant. RowOne® exclusive cinema columns and trims gives any home theater room a custom look without paying custom prices. Its modular design lets you choose the pieces you want for a seamless fit and finish.

Installs in approximately one day, and columns are adjustable from 84" to 96" high.
