

RowOne

Itemized Planner

It's as easy as 1-2-3

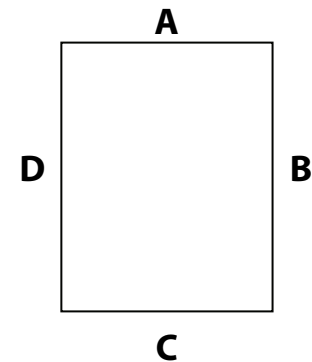

1. Determine the amount of **Crown, Base and Chair Rail Molding** needed

2. Determine the number of **Large and Small Columns w/ or w/o Speakers** needed

3. Determine the number of **Adapters** needed

Calculate Room Perimeter

Side A + Side B + Side C + Side D

Room Height = _____

Perimeter = _____

PART NO	ITEM	CALCULATIONS	QTY
RO-CR	Crown Molding*	Room's Perimeter Divided by 6'	
RO-BD	Baseboard Molding*	Room's Perimeter Divided by 6'	
RO-LC	Large Columns	2 Columns on screen side of room	
RO-SC	Small Columns	At least 1 on each side of room	
RO-KEY	Keystone Adapters	Joins 2 pieces of crown molding when no columns are used	
RO-INSA	Crown Adapter Inside Corners	Use when running crown molding around inside corner	
RO-OTSA	Crown Adapter Outside Corners	Use when running crown molding around outside corners	
RO-CHRL	Chair Rail	Room's Perimeter Divided by 6'	

* RowOne recommends professional installation of all RowOne Home Theater Décor products.

We recommend a miter cut to join all moldings that are longer than 6'
